WASHINGTON, June 1.—The senate banking and currency committee probing the financial affairs of the house of J. P. Morgan and Company today voted, nine to three, to make public the articles of co-partnership by which Morgan had absolute control over the banking institution.

Names and interests involved, however, will not be revealed.

Senators Costigan (D) of Colorado, Norbeck (R) of South Dakota and Couzens (R) of Michigan opposed the move on the grounds that they wished everything made public, names and all. Norbeck was not present but his vote was cast by Costigan, who made the motion to make everything public.

No Names Or Interests.

Those voting for publication without disclosure of names and interests, in addition to the committee chairman, Senator Fletcher (D) of Florida, were Senators Steiwer (R) of Oregon, Goldsborough (R) of Maryland, Wolcott (R) of Connecticut, Glass (D) of Virginia, Byrnes (D) of South Carolina, Adams (D) of Colorado, Townsend (R) of Delaware, and Bulkley (D) of Ohio.

### PA NEW OBSERVES

Grove City is celebrating. The three day period starting today is being observed as the fiftieth anniversary of the incorporation of the borough, with special program. The new postoffice building is also being dedicated. Large numbers of visitors are expected for the ceremonies.

Along with the garden stuff, grass, etc., the weeds are also coming on at a tremendous rate. Along many of the streets and sidewalks in the city there is room for some activity in the weed cutting line.

Weather conditions this morning got so cool that there were actual frosts on a frost on the part of some residents.

New Castle schools are nearing the close of what has probably been the most difficult year in all the city's history, from an economic standpoint. The fact that New Castle teachers have been paid in full on every pay day during the year is an achievement that few cities can boast of this year.

Although a bit belated, Pa New would like to compliment New Wilmington upon its splendid display of American flags on Memorial Day.

### Conclude Hearing In Case Of Butler; Decision Comes Later

No decision was reached by the County Commissioners Wednesday afternoon in the case of Mark Butler, County Coal Field Superintendent, following the final hearing of the charges in his case, heard Wednesday. He is charged with having asked for and accepted money from coal truckers who worked in the fields.

The Wednesday session was a continuation of the previous hearing when many witnesses were called. One of the witnesses called the first day was Paul Burrows who testified that Butler had purchased a car from his company which was to be paid for partly in coal. Butler produced a waybill purporting to cover the coal, from the Vance Coal Company, but there was a variance of some months in the date of the waybill and the date of the contract for the car.

Another Car Recalled Wednesday Burrows testified that Butler had purchased another car, and that the coal delivered was not on the last purchase. Asked if he had ever had a conversation with Butler in which Butler had said he couldn't pay cash for a car but could get some coal, Burrows didn't remember. Butler took the stand again in his own behalf. Under questioning he denied that he had ever made the statement before truckers that he expected them to kick in. He was expected them to kick in. He was expected them to kick in. He was expected them to kick in.

### No Assistant To Syling Will Be Named This Year

County School Head Receives Permission To Withhold Appointment

### OFFICE WILL BE VACANT FOR YEAR

County Superintendent of Schools, John C. Syling, has received permission from the State Department of Education to withhold the appointment of an assistant for the coming year, and the office here will be vacant for that period of time.

Mr. Syling went to Harrisburg Monday, for the purpose of conferring with state school officials in regard to the matter, and was given permission to operate the office here without an assistant as an experiment.

The department agreed to go along on the proposition to determine whether the office can be adequately handled without an assistant. If it is found that the work cannot be accomplished, he will be given permission to make an appointment, but Mr. Syling expects to try out the experiment for a year.

Office Now Vacant The office has been vacant now since May 8, following the resignation of Clare B. Book, as assistant superintendent.

The office of assistant to the county superintendent here has been in existence since the school code was changed in 1911. At that time there were less than 200 teachers in the county school system. At the present time, there are more than 300, and the work of the county superintendent has been almost doubled.

During his stay in Harrisburg, Mr. Syling also made request for all legislation affecting the school system, which was passed by the legislature, but copies of all the laws are not yet available. As soon as he receives this information, a meeting of the county school directors will be called to discuss the legislation affecting the county district.

This meeting will probably be held at Union High school, but plans for the same are as yet in a tentative stage.

### Shenango High Class Graduates

Forty Receive Diplomas Last Night At East New Castle School

### ADDRESS IS MADE BY DR. GALBREATH

Forty young men and women of Shenango township high school completed their scholastic careers Wednesday night, signifying the successful termination of four years of study in the high school grades. For the occasion the Shenango auditorium was well filled with parents, friends and students. One thing that will stand out in the memory of the students was the quality of the commencement address. Delivered by Dr. Robert Galbreath, president of Westminster College, it was cultural, instructive and inspirational and marked the high spot of the commencement season for the school.

Two-Hour Program From the beginning of the program at eight o'clock until the finish little more than two hours were consumed. At no time did the program seem drawn out and every number on it had a definite relation to the occasion. As the school orchestra, under the direction of Prof. Charles G. Lindner, played Cadman's "Pestal March", the graduating class marched into the auditorium and took places for the last time as a class.

The invocation was pronounced by Rev. R. J. Fredrick of the Calvary Baptist church, after which Philip Cross presented a solo, "Memories Harbor". The two honor speakers of the class then delivered the commencement orations. John Fleck and Alfred Sorbo. Mr. Fleck spoke on "The Value of Music" and Mr. Sorbo on "Triumph of Modern Medicine". Both of the orations were well thought out, soundly constructed and well delivered.

ANNAPOLIS, Md., June 1.—A little group of proud young men who this afternoon will become the newest officers of the United States navy were admonished today by President Roosevelt to remember always that the point of view and general well-being of "the average citizen" are foremost, and all-important considerations.

Few men succeed, the president told the 1933 graduating class of the Naval Academy, "who do not take into consideration the effect of their individual efforts on humanity as a whole."

Mr. Roosevelt had just finished distributing diplomas to the midshipmen. Historic old Dahlgren Hall was packed with relatives and girl friends, with the graduating class forming a compact square in the center of the big armory.

Pleasantly, but pointedly, the president warned the future admirals (Continued On Page Two)

### DAVIS PREVENTS PARLEY DEADLOCK

(International News Service)  
GENEVA, June 1.—The disarmament conference today agreed to adjourn for a few weeks as soon as the first reading of the British arms plan is completed. The agreement stipulated, however, that the conference reconvene by July 3 at the latest. First reading of the British plan is expected to be terminated by Saturday.

Crisis Averted The agreement was reached after a serious crisis had been averted by the intervention of Norman H. Davis, American ambassador-at-large. The conference was faced with a stalemate owing to the refusal of the several smaller nations to work out a draft agreement independently.

Arthur Henderson, chairman of the conference, proposed that he undertake formulation of the draft himself. Davis seconded this proposal and suggested a compromise under which Henderson would be empowered to "negotiate differences" while members of the steering committee worked on the draft itself.

# READY TO START STATE "SWEAT SHOP" PROBE

## Public Hearings Begin Tuesday

Committee Decides On Tentative Program; First Hearing In Philadelphia

### TIOGA COUNTY MAN CHAIRMAN

(International News Service) HARRISBURG, June 1.—After splitting over the election of a chairman, the joint legislative committee appointed to investigate "sweat shop" conditions in Pennsylvania was in accord today on a tentative program.

The first public hearing will be held next Tuesday at Philadelphia. No dates have been set for additional hearings which will be held in the coal fields and coal mining regions of the eastern section. Later, the investigators plan to carry their inquiry into the western field.

Senator G. Mason Owlett, Tioga, was named chairman of the committee by a five-to-four vote which represented a split between Republican organization members and supporters of Gov. Gifford. Judge Horace Stern, Philadelphia, was the administration candidate.

Senator Harry J. Bell, Fayette, was appointed chairman of the committee to investigate the handling of assets of closed banks. After naming Rep. David R. Perry, Blair, secretary, this committee decided to proceed as a "fact finding" body and to hold its first meeting on June 15.

### CONCLUDE HEARING IN CASE OF BUTLER; DECISION COMES LATER

(Continued From Page One)

then asked if he had ever had trouble with a man named Woodward, whose name has entered the case a number of times.

Butler replied that he had. The trouble, he said, was about five years ago, when a family named Alexander was living with Butler. Woodward called upon one of the young ladies in the Alexander family, he had ordered him to stay away from the house. He also related the situation when Woodward worked in the coal field.

Butler admitted that he had gone to the Vance Coal Company some time ago after the hearing had been ordered, but this trip he explained was for the purpose of checking up on the coal he had purchased.

### Waybill Produced

The waybill dated March 15, 1932 was produced and Butler said this had been given to him by the Vance Coal Company. He admitted that the coal had been delivered to H. B. Shaffer and that Calvin Matthews had driven the truck containing the coal. On the waybill was a memorandum, dated March 15, 1932, which Butler explained was his own notation showing what he had paid. The money had been paid to Mr. Shaffer, he said.

Calvin Matthews was recalled and testified that he had hauled the coal from the Vance Coal mine to the garage of the Morgan-Burrows Company, and that he had been working for H. B. Shaffer at the time.

At this juncture Attorney Edwin K. Logan, representing Butler, asked the commissioners if he could call a man who would admit having offered Butler money. Solicitor Lockhart ruled the testimony out.

H. B. Strassbaugh was called and testified that he had known Woodward for some time. Asked by Logan to explain what part Woodward had had in the bringing of the charges being heard, Attorney Patterson objected and Solicitor Lockhart ruled Strassbaugh's testimony out.

mony out as it concerned a person who was a "sweatshop" complainant or a witness in the case.

R. C. McCaslin, County Controller was called and produced the Analysis Ledger of his office which showed that H. B. Shaffer was on the county pay roll in March, 1932, at a time when Butler said he was not working at the coal fields. This concluded testimony and the attorneys made their pleas.

### Scores The "Rabbit"

In his remarks Logan urged the county commissioners to disregard the "rabbit" who he said had stirred this case up. "They are men who have an axe to grind," said he. "They have produced no evidence which would warrant the discharge of Butler. They don't want the truth. They want somebody's job."

Attorney Clarence A. Patterson made no recommendations as to the course of action by the county commissioners. "You delegated a public trust to this gentleman," he said. "You have heard the testimony and it is your job to decide whether there has been a breach of that trust. Whatever your action is, we know that the case has been presented fairly and honestly and we rest our case conscious of this fact. We make no recommendations in the case."

The complainants in this case in some cases did not know Butler. They merely presented the affidavits in the case in order that certain charges against Butler might be aired. If you find that these charges have been sustained, your course of action is clear."

The photographing of Morgan with a circus midjet on his knee in the inquiry room was called an "outrage and shame" by Senator Fletcher (D) of Florida, committee chairman who appealed to American newspapers not to publish the pictures.

"While the committee was in executive session," said Fletcher, "I understand the photographers took a picture here of Mr. Morgan with a midjet on his lap."

"I think that picture was wholly undignified and wholly unwarranted."

"I ask the newspapers not to publish it."

"Mr. Morgan has been very kind about photographs. This was taking advantage of him and the circumstances and as chairman of this committee I think it was an outrage and a shame."

Fletcher was interrupted by a burst of applause.

"I ask newspapers not to publish this unseemly photograph."

## The Castleton Shows Strategic Location

Alive to the fact that New Castle is the logical overnight stopping place for World's Fair traffic from the east to Chicago, Thomas F. Boyle, manager of the Castleton Hotel has had 10,000 descriptive map folders printed which will be circulated east and west here.

From New York to New Castle it is a trifle more than 400 miles, and from New Castle to Chicago the distance is almost identical. Route 422 which comes west by way of Ebensburg, Indiana and Butler is the short motor route between the east and west and it is anticipated that traffic on these highways will be heavy this summer.

The new Castleton folder shows the motor lanes between the east coast and Chicago with New Castle featured as the ideal stopping place. In addition, road signs have been erected on highways east and west of here showing directions and once the motoring public becomes aware of the advantages of routing their trip through New Castle there should be a marked increase of foreign license plates seen on the streets.

Durkee, shot and killed in Chetopa, Kas., in a gun battle with unidentified assailants, was the work of one band of convicts, in the opinion of authorities.

Warden Kirk Prather and two penitentiary guards who were released only fifteen miles from the scene of Durkee's murder, said the criminals have shotguns, rifles and pistols.

Two notorious killers, Wilbur Underhill and Harvey Bailey, led the group which carried Warden Prather off. Authorities believe they have fled to a hideout in the Spaville Hills, a wild section in Craig county, Oklahoma, where Underhill operated in former years. The men had threatened to shoot Prather and his two assistants, but later released.

Likewise well armed were the five criminals who kidnaped and later released Mrs. M. J. Wood of Kansas City; her daughter, Louise, 17, and Miss Cloris Wears, 17.

Two More Kidnaped. Joplin, Mo., June 1.—Search for two of the escaped Kansas convicts was intensified here today after the kidnaping of B. K. Blair and Miss Alice Braithwaite by two men who identified themselves as Clifford Dopson and Jim Clark, two of the prisoners.

Blair and Miss Braithwaite were held captive for about two hours before the convicts released them at a filling station at Neesho, Mo.

Blair said the men told him they had killed a "bull." Officers believe they referred to the slaying of Otto Durkee at Chetopa, Kas., where Blair's automobile was taken by the men.

Siloam Springs, Ark., June 1.—The automobile stolen in Lansing, Kan., by some of the eleven prisoners who escaped from the Lansing penitentiary was found abandoned near here last night, Chief of Police Robert LaFollette reported today.

"The car was found on a road two miles from the Oklahoma line after I exchanged shots with three men in the car," Chief LaFollette said.

"As I was chasing them around a turn in the road my car ran into a ditch. I fired three shots at the speeding automobile, but I couldn't say if they hit anyone."

## BEER WON'T MAKE YOU FAT

If you aid the digestive juices that prevent "bloat."

You can drink beer, in any reasonable quantity, and forget all fear of fat, if you give your Lippase just a little daily help. Any dictionary will tell you that Lippase are the digestive juices that control the production of fat in human bodies. When these juices are controlled—regulated—you lose all surplus fat, and become slim and really healthy.

That's why the new scientific Vannay treatment is doing such wonders for people who are overweight. It encourages the proper flow of the Lippase, and actually dissolves fat before it can deform the body. Vannay is absolutely harmless. It contains no thyroid extract, no iodine, no laxatives, no drugs of any kind that could hurt even a child. It was discovered by a great physician who has specialized in research with the leading medical institutions of Europe and America.

You don't have to starve yourself or go through painful exercises. You simply take Vannay tablets each day and continue to eat just the places where you want to lose it. Start the treatment at once and all your fond dreams of health and slim loveliness should come true. Ask your druggist for Vannay and be sure the name is in the package. If you are not perfectly satisfied with the results, your money will be promptly refunded. Love & Megown.

## SHENANGO HIGH CLASS GRADUATES

(Continued From Page One)

College, spoke on "The First Third of the Century." He reviewed the amazing changes that had occurred to our civilization since the inception of the 20th century. Industry, science, education, all of them had undergone changes for the better, he said.

Touching upon the World War, he drew the attention of the class to the fact that the world had practically been made over as a result of it.

"At the present time the world is in a state of flux," Dr. Galbreath said. "The world is continually changing, so much so that it is doubtful if the people 50 years hence will quite appreciate just what unusual changes have been made, or the importance of the period through which we are passing. For the first time in the history of the world nations are resorting to the counsel table instead of the battlefield to settle their differences."

He urged the class to be awake to the problems of the day, to face the future with courage and to remember that the grave problems of the present will be settled only when such people as were present in the graduating class utilized the best that was in them to perfect a settlement that would be just and right.

## Present Diplomas

Another number by the orchestra followed, "Suite Antienne," and then came the presentation of diplomas by the county superintendent, John C. Syling. He spoke briefly before the presentation and then as each name was called, the graduating class walked across the stage and received the parchment that symbolized their four years of high school study.

Another number by the orchestra, this time the recessional march, "March Heroique," by Schubert, and the class filed out. The crowd dispersed and for a time there was a reunion in the lobby and halls. The class of 1933 was through, their high school work was done, and Supervising Principal Glenn W. Johnston had completed his first year as the executive of the Shenango township high school.

## Class Members

The members of the graduating class follow: president, Ernest Lochner; vice president, Jack Craig; secretary, Joseph Sherbak; treasurer, William Smith; Margaret Tanner, Helen Boeber, William Brenner, Wilbur Conner, Harold Cotton, Philip Cross, Samuel Dambrovia, Ben Dominick, John Fleck, Mary Fleck, Henry Frenkel, Henry Gierling, Dorothy Hoover, Robert Houk, Arthur Kelly, Alma Lepisto, Gula Moore, Pauline Myers, Viola Neyman, Anthony Parrott, Allison Pitsch, John Folemic, Emerson Reno, Lucille Reno, Mildred Reno, Cora Rhinehart, Buster Rzeznik, Mary Semansky, Mary Shuts, Olive Snyder, Alfred Sorbo, Charley Styers, Irene Styers, Opal Tindall, Charles Willis, Ethel Yoho.

## WAKE UP YOUR LIVER BILE—WITHOUT CALOMEL

And You'll Jump Out of Bed in the Morning Rarin' to Go

If you feel sour and sunk and the world looks punk, don't swallow a lot of salt, mineral water, oil, laxative candy or chewing gum and expect them to make you suddenly sweet and buoyant and full of sunshine. For they can't do it. They only move the bowels and a mere movement doesn't get at the cause. The reason for your down-and-out feeling is your liver. It should pour out two pounds of liquid bile into your bowels daily. If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas bloats up your stomach. You have a thick, bad taste and your breath is foul, skin often breaks out in blotches. Your head aches and you feel down and out. Your whole system is poisoned.

It takes those good, old CARTER'S LITTLE LIVER PILLS to get these two pounds of bile flowing freely and make you feel "up and up." They contain wonderful, harmless, gentle vegetable extracts, amazing when it comes to making the bile flow freely. But don't take for liver pills. Ask for Carter's Little Liver Pills. Look for the name Carter's Little Liver Pills on the red label. Resist a substitute. 25c at all stores. © 1931 C. M. Co.

## BUSINESS WOMEN TO HAVE PICNIC MONDAY

The initial picnic of a series of five planned by the Business and Professional Women's club of New Castle will take place at Lakewood on next Monday evening, June 5.

This event will not only mark the launching of the summer social activities and the opening of the Rae Muirhead cottage for the 1933 season but will be the first step toward building a fund for cottage repairs. A new roof is necessary as a result of the terrific hailstorm of several weeks ago.

Indications today are that the picnic will be attended by a large crowd, according to Miss Effie Butz, chairman of the committee in charge. Her committee-women, Misses Della Glenn, Emily Rice, Agnes Wagner, Clara Emery, Miriam Cornman, Mary Tewell, Mary Boyle, Martha Dinsmore, Martha Mathews and Mrs. Alice Rogers are individually calling all members of the club to remind them of the time and date.

An inducement in itself is the knowledge that Mrs. J. M. Butler and Miss Mary Wilson are helping out on the preparation of the refreshments.

No reservations are being taken after 7 o'clock Saturday evening. Dinner will be served at 6 o'clock. Two picnics will be enjoyed in June, two in July and one in August.

## WILMINGTON MARRIAGE OF LOCAL INTEREST

A quiet home wedding which took place this morning at New Wilmington that is of interest to friends here and in Ellwood City is that of Miss Clara A. McCready, daughter of Mr. and Mrs. A. J. McCready, Vine street when she became the bride of Kenneth Moyer of Sharon, with the Rev. J. The bride is a graduate of the Sharon high school in '25, and of Westminster College with the class of '29, and for the past four years taught in the Ellwood City Junior high school. A premature touch of commencement came for the Senior high school graduates last night as the June class gathered for the traditional senior dinner-dance in the gaily decorated ballroom of The Castleton. It came as a climax to almost two weeks of pre-graduation social affairs.

The farewell note chiefly attendant to commencement night programs was evident time and time again in the speeches which featured a program that came at the close of the dinner.

About the beautifully decorated table, at which the class colors of green and white predominated, 170 seniors and special guests were assembled. A local orchestra, engaged for the evening of dancing, played as the group dined.

The dignified program was opened the after-dinner program as toastmaster, introducing Superintendent of Schools C. C. Green, the Rev. J. A. Galbraith, Epworth M. E. pastor and baccalaureate speaker for the class and Principal F. L. Orth, all of whom spoke appropriate words.

Caven; secretary, Inez Gillespie, and treasurer, Edward Brelock. Miss Ruth Caven gave a piano selection and Miss Vesta Householder and Mrs. Lunn rendered a vocal duet, thus bringing the meeting to a close.

The gong was sounded for the evening meal and a grand rush made for the dining hall, where a tasty repast was served.

## "I SEE BY THE PAPER"—

HOW many times have you prefaced a statement with the phrase "I see by the paper?" You are acquainted with the facts because some newspaper has set them down for you. You believe them to be true because you have come to rely upon newspaper accuracy.

What part does your newspaper play in your community? Think of any civic activity that has taken place in the past year and see if your newspaper hasn't had a part in it. A Community Chest needs money, a relief drive is in progress, funds or food or clothes are needed for the distressed and all of them have been put across because your newspaper has given of its news column space to advance the project.

In the past year particularly the newspapers have carried a heavy responsibility. The financial news of the day has been such that required sane judgment in the presentation, lest undue alarm be spread and disaster resulted.

An official has corrupted his office, selfish interests are endeavoring to exploit a group of people, and the truth of the matter is brought to light because a newspaper spent the time of its writers and its money to give the people of the truth.

Your newspaper is an ineradicable part of your life. It has survived because it has given the news of the day honestly and accurately, it has justified its existence time and time again.

As you read your newspaper, whether it be in Maine or California, remember that a great organization of men and women over the entire world have labored day and night to get you the facts as quickly and as accurately as it is humanly possible.

## HISTORY STILL IN THE MAKING

History is still in the making. Today we are living in the most eventful time in all history. Old ways, old standards and old systems no longer can survive because they do not meet the needs of the day. No business, no community, state or nation can defy the law of progress by moving backward a generation. Progress and prosperity demands the cutting loose from hampering precedent, and uniting our forces unselfishly to clear the ground for a new era.

You can't solve the transportation problems of an airplane by going back to ox carts and saddle bags.

For those who have eyes to see, this is the test of civilization—the trial of America's fitness to survive.

## MOTOR CAR LEARNERS' PERMITS INCREASING

The State Bureau of Motor Vehicles at Harrisburg reports a small but steady increase the past few months in the number of applications for learners' permits. Thus the index of prospective drivers is rising.

It is an encouraging sign of revival in the automotive industry, a corroboration of evidence manifest elsewhere. For while motor car operation depends on leisure for volume, it is the kind of leisure which must be financed in advance with some appreciable assurance of a continuing income.

## POPULATION FIGURES NEARING UNIFORMITY

Preliminary figures from the Bureau of the Census at Washington indicate a ratio of eighteen births for every thousand of population in the United States last year. This is the lowest on record. The deficit in births was greater in cities than in rural districts. In many instances the population gain from births was barely sufficient to offset losses from deaths, leaving the population statistics practically unchanged.

For some time scientists have predicted that within sixty years this country would reach a population level which would be fairly stationary. It is not believed that the era has already arrived. The decline in births has been due to economic causes which are temporary. After recovery from the depression the normal increase is expected to revive with probably some surplus to offset the late recession. Ultimately, however, the Nation is likely to reach a balance between birth totals and death totals. A feature of the present census trends is the large proportion of persons in the higher age groups. This factor somewhat distorts a birth rate based on total populations, when a more comparable basis would be the number of persons in the groups of child-bearing age.

It is probably true, however, that, as far as cities are concerned, they must depend on recruits from the rural regions to maintain a population balance. It is true also that economic aspect of the matter should not be overlooked. Industrial planning has counted on a certain annual increase in consumer power. Manufacturing production posted on those estimates must be revised in the light of new implications.

## All Of Us

BY MARSHALL MASLIN

I . . . I . . . I  
When I was 16 I worried because I thought I was fickle.

I shout on the telephone.  
Telegrams still worry me.

I wonder when I will grow up, if ever.

No young woman ever turns her head to look at me (unless I have a loose garter).

I never get a cold. (Well, hardly ever.)

I've never grasped a nettle "firmly."

When I was a boy, I liked raw hamburger sandwiches. (I couldn't do it now.)

I was sorry when my children stopped believing in Santa Claus.

I'm no good on committees.

But I used to be very good on roller skates.

Once we really did live down by the vinegar works.

My most embarrassing time was when a little 12-year-old girl liked me and showed her liking too plainly. (I would have liked her, but she was "too bold.")

I can't stay mad.

I used to be able to save money.

I can't keep a pocket knife more than six weeks.

Puns are my weakness.

My hair is gray. Kind people say, "But I always say that gray hair looks distinguished." (But not when it sticks up in the back.)

I'll never serve on a murder jury.

I admire carpenters, bricklayers and stove-dressers.

In hot weather, I melt like a wax candle.

If some pest killed every egg plant in the world, I wouldn't cry.

I have no superstitions. (Except at bridge.)

I envy doctors and architects.

I think "I" is a fascinating pronoun.

## BAD INFLUENCES

There are persons who have a bad influence on you.

You are always tempted to do something which often brings regrets, when you are with this person, or persons.

You resolve to avoid those responsible for these evil influences.

But when they come to you with a proposal you find yourself too weak to resist and you fall.

You spend too much money, stay out too late at night and engage in certain practices in company with these persons which are a discredit to you and your training.

You always feel ashamed of yourself, mean for days afterward and yet you have not the strength of character to refuse an invitation.

The persons who lead you around do not admire you, don't even respect you, but they get satisfaction in controlling you.

Are you willing to be so controlled?

The more you object but finally succumb to their desires, the more gratification these bad influences, personified, get out of your plight.

How long will you permit yourself to be a puppet?

When will you become master of yourself?

And so he said: "My loss turned gain. For reasons which I can explain! At first I thought to be in touch With peace of mind one needed much;

And ease and comfort and content Were measured by the sums one spent.

But now I find such joys are free Since I've made friends with poverty.

"It's this way. I am done with sham. You see me now just as I am. I've taught my tongue this phrase to say:

"I can't afford so much to pay!" I've turned away from foolish pride And walk the world with manlier stride.

I've less to do with than before. But I'm enjoying life much more.

"I'm up at dawn and as my task. What better fun could mortal ask? We're on a simple basis. Still, Of wholesome food we get our fill. I've health, my friends, some books to read.

**Auditors Find Important Books Missing In Allegheny County**

(International News Service)  
PITTSBURGH, June 1.—County solicitors today began a thorough checkup of a report by auditors of the Allegheny county commissioners that present and former county employees destroyed payroll and

time books for various field offices of the road maintenance division. The checkup is being made to determine whether civil or criminal action can be brought on behalf of the commissioners.

In addition to the "missing" payroll and time books, the auditors reported county payrolls carried men absent from their jobs and that in some instances pay checks bore fictitious endorsement.

## Business Is Showing Decided Improvement

Both In Heavy And Consumer Industries, Business Is Improving Rapidly

Production, Employment, Payrolls And Sales Are On Upclimb In U. S.

(International News Service)  
WASHINGTON, June 1.—Both in the heavy and consumer industries through many sections of the United States, business is showing a decided improvement, the commerce department announced Wednesday on the basis of reports from 22 important trade associations.

Production, employment, payrolls and sales were going forward for the first time since the depression started. It was regarded as specifically significant that the automobile, steel and machine tool associations were optimistic.

The department asked the associations for facts and conservative opinions rather than optimistic views.

**Collections Improve**  
The National Association of Credit men representing approximately 20,000 manufacturers, wholesalers and bankers, reported considerable improvement in collections in 18 states. Better business generally was seen in many sections. The association emphasized that business was being placed by houses previously practically out of the market for inventory purposes, although re-placements are far short of normal stocks.

Former Secretary of Commerce Lamont, who is head of the American Iron and Steel Institute, said the demand is fairly widespread with the automobile industry the largest buyer. Most steel executives are fairly optimistic he said.

Betterment in the oil industry will become immediately apparent upon rational control of crude oil production without which further distress is inevitable. Axtell J. Byers, president of the American Petroleum Institute wired.

A variety program of entertainment was presented Wednesday evening in the Y. W. C. A. auditorium under the auspices of the Sons of Veterans Auxiliary of Oscar L. Jackson Camp 249 for the delegate fund.

The program opened with a flute and horn duet, "Serenade" by William Shira and George Kyle, with Jean Haug at the piano; Henry Wilkinson had a trombone solo "Believe Me If All Those Endearing Young Charms"; a high school brass quintet; Arthur Gorman, Henry Wellhausen, Alfred Sadler, Henry Wilkinson and James Kirkpatrick.

Dance numbers were presented with Helen Messner, Frances Stickie, Eva Brown, Billie Glenn, Ruth Hoyland and Ruth Stickie doing a pretty song, with dance figures; Sonnie and Dorothy Truby had a song and dance; Jean Bartsch had a solo number; Romie Appolito and Tomaso Armand did "Wooden Soldier and China Doll" and Phyllis Jo Kraft had a song and dance.

Anthony Caserio, accompanied by Beatrice Laverick, had two violin numbers "Meditation" and "Liebesfrend". A big hit was made by Miss Betty Glover and J. C. Ward as they put on a sketch "Watching the Clock"; Miss Mary Elizabeth Suber sang "Brown Eyed Susan" and did a tap number; Tom Lewis and his accordion were greeted with enthusiasm as he played several selections; Ruth Russell and Billie Jean Seal had a "Harlequin and Columbine" song and dance; Billie Glenn and Ruth Hoyland had a comedy song and dance number.

### New Trials Refused In 3 Court Cases

**Judge James A. Chambers  
Hands Down Opinions In  
Cases Tried Before Him**

In an opinion handed down at court this morning Judge James A. Chambers refused a new trial in the case of Mattie H. Ridgeway against Edna Goschke. The case was one growing out of an automobile accident, the plaintiff claiming that the defendant's machine sideswiped her car, and that the accident was due to the reckless driving of the plaintiff.

The verdict in the case was in favor of the defendant, and under the court's opinion the defendant will have nothing to pay. A new trial was also refused in the case of M. L. Alley against Michael and Gertrude Evanowski. The case was one growing out of an automobile accident in which Alley was retained as an attorney. After he had done considerable work defendant's changed attorneys, and refused to pay for the work that Alley had done. The suit was finally settled for \$2650 and Alley sued for his fees. The verdict was in favor of the defendant.

In the case of T. E. Blake against Orin Vance, Judge Chambers also refused a new trial. The case grew out of a bill for hauling of some logs to a saw mill. Blake was dissatisfied with the amount awarded him by the jury.

Wayne, the three year old son of Mr. and Mrs. Earl Eakin, 923 Warren avenue, fell while at play Memorial Day and fractured his collar bone. The little fellow is resting as easily as can be expected.

YOUTHFUL SKIN... what a world of happiness those two words mean to a woman!

Yet too often—and too soon—women see their lovely youthful complexions grow dull, rough, old-looking. WHY?

### The Secret of Youthful Skin

Because, science now tells you, skin gradually loses the precious elements nature herself puts in skin to keep it young-looking... and it's these precious elements that skin must have to be youthfully attractive.

But here's good news... scientists explain now you can check the loss of those precious elements. Lux Toilet Soap actually contains such precious elements... and is completely free from harshness, readily soluble. That is why this wonderful soap is an

unquestionable aid in keeping skin young-looking... softly smooth, they declare.

Do you wonder that 686 out of the 694 important Hollywood actresses are so enthusiastic about this fragrant, white soap... have used it for years? And that it's been made the official soap in all the big film studios?

### A Lovelier YOU

MILLIONS of women (and men, too) have confirmed Hollywood's experience.

You, too, can have a softer, smoother, younger-looking skin with this scientific care. Get Lux Toilet Soap today—and prove it to your own satisfaction.

### "THE FLAG WAS STILL THERE"

For something like two years, the American flag, which hung for several years in the police court room and under the shadow of which various mayor's dispensed justice, has been missing.

Some thought it had been stolen. Others thought it had been sent to

the cleaners and lost. The only thing definitely known was that the flag was missing.

Recently, when the office of the mayor underwent a thorough house cleaning, a bag was discovered and when opened "there was the flag".

It was dry cleaned and on Memorial Day for the first time in two years, it again graced the police court room of the city building.

Rents Outings For 18  
Needy Boys

The Phalanx fraternity of the Y. M. C. A. will next Wednesday launch the customary summer social season which it sponsors during the months of June, July and August. Regular business meetings commence in September.

President Earle M. Brookover has named the following special committees to handle the affairs during the next three months: In June, Chris Clark, Dale Young, Ron McCoy and Charles Matthews; July, Al Owens, Don Thompson, Jack Boyles and Richard Smith; August,

Robert Griffiths, Bruce Ewing, Lauri Laurel and James Beadel.

The Phalanx will select 18 underprivileged boys of the city for a week's outing this summer at the Y camp, Camp Rentz. Their vacation trip has already been paid for by the organization.

The financial clouds seem to have a decidedly silver lining.

Motor vehicle accidents in Pennsylvania for the first four months of 1933, exceeded the number for the same period in 1932, according to a study of statistics compiled by the state highway patrol and a campaign to enforce better observance of the motor vehicle law in this district will start today.

In 1932 there were 12,440 accidents during January, February, March and April. In the same period of 1933 there were 13,594. The injured totalled 13,479 for the foregoing period of 1933 and 11,057 last year.

Ten per cent were occupants of vehicles involved in accidents with fixed objects and approximately the same percentage of those killed were in non-collision accidents.

Of the total accidents 52 per cent of them involved some violation of the motor vehicle code.

## Sherwood Back To Face Music

Russell T. Sherwood, Long Missing Seabury Witness, Returns To New York

## HAS PRAISE FOR "JIMMY" WALKER

(International News Service)  
NEW YORK, June 1.—Broke, prematurely aged and out of employment, Russell T. Sherwood, long missing witness to the Seabury investigation into former Mayor James J. Walker's regime, has returned "to face the music," the New York American said today in an exclusive copyrighted story.

The music includes a \$50,000 federal income tax judgement on an income which Sherwood now says he never received, and a supreme court fine of \$50,000 for failure to obey a summons to appear as a witness at the Seabury inquiry.

Sherwood has returned, the American said, to make a sweeping denial of all the charges made by witnesses in the Seabury hearings. He denied, in the interview with the American, that he had never received, personally, one cent of the money alleged by the Seabury investigators to have been deposited in his accounts—total of nearly \$1,000,000—on which the federal government levied an income tax of approximately \$50,000.

Upholds Walker  
He denied that he ever was Mayor Walker's fiscal agent, or that he ever had drawn any salary from Walker. He also denied that Walker ever had kept any money, securities or papers in the safe deposit box rented jointly in their names. The only valuable article the former mayor ever had in that deposit box was a piece of jewelry which he said a friend had given him to be sold, Sherwood declared.

## Cardinals And Pirates Tied For Leadership

Cardinals Will Make Pittsburgh Hustle To Hold First Place

### SENATORS AND YANKS SPLIT

By LES CONKLIN  
International News Service  
Sports Writer

NEW YORK, June 1.—As the result of Pittsburgh's 5 to 1 defeat by Chicago yesterday while St. Louis was idle, the Pirates and Cardinals were practically tied for first place in the National League today—which is exactly the way the bookmakers figure the pennant scramble.

The latest odds rate the two leaders equal favorites at 2 to 1, with 3 to 1 quoted against the New York Giants and 5 to 1 against the Cubs. St. Louis gained five full games on the Bucs during May by winning 19 games and losing only 7, the best record in either league. Pittsburgh won 14 and lost 12. The Giants did almost as well, winning 13 and losing 12, while the Cubs, with 16 victories and 12 losses, were second only to the Cards in the senior circuit.

**Yanks Favorites**

New York's Yankees are an odds-on choice at 2 to 5 to repeat in the American League, with Washington second choice at 4 to 1 and the Athletics third at 6 to 1. The Yanks gained on Washington in May by winning 14 and losing 9 while the Nats won 14 and lost 12, but the A's outstripped both, winning 15 games and losing only six.

The Yanks won their first series of the year from the Senators by gaining an even break in yesterday's twin bill, but neither outfit resembled a pennant contender. They looked more like the married men playing the bachelors at the firemen's annual clam bake.

The Senators took the opener 12 to 7, battering the Yankees and knocking the great Lefty Gomez out of the box in the eighth inning when they scored five runs. Marush and Cronin drove in four runs for the Nats.

**Sewell Hits Hard**

In the ninth, Bill Pennock, veteran fox fancier who also has acquired some renown as a pitcher in the last 20 years, made his first start of the year for the Yankees and managed to subdue the Nats 9 to 7 with the help of two other veterans, Joe Sewell and Babe Ruth. Sewell drove in five runs and Ruth hit a triple, double and single. The Yanks kayaked Professor Monte Weaver in the second stanza and piled up a total of 16 hits.

The Cubs made only seven hits against Pittsburgh while the Bucs nipped Charley Root for ten blows, but Charley galloped home on the chin-strap, 5 to 1, thanks to three very smelly errors by the Pirates and Bill Herman's double with the bases full in the fourth inning.

All other clubs were idle. Pittsburgh's defeat left the Bucs only five percentage points ahead of the Cardinals.

**BEND BODY SIDEWAYS IN ADDRESSING BALL**  
Alex Morrison says  
Most players fail to get into the right starting position because they bend forward instead of first bending sideways.  
If you will make a habit of tilting your hips over toward the left as you approach the ball you will drop into a much more comfortable position when addressing the ball.  
Bending sideways may seem awkward to you at first but once you get accustomed to it you will never do anything else for it is something done by every good player.

## Dempsey Denies Crossing Maxie With Stiff Left

Joe Jacobs Yells That Dempsey Tried To Kayo Schmeling In One Round

### EXHIBITION BOUT STARTS WRANGLING

By DAVIS J. WALSH  
International News Service Sports

NEW YORK, June 1.—Charges involving the double, the triple and even the multiple cross were aired with considerable gusto today as John (Front Man) Dempsey and Joe (We Was Robbed) Jacobs accused each other of bad faith in connection with the recent Dempsey-Schmeling one round exhibition. But this was only a preface, introducing and leading up to further grievances. Dempsey, according to Jacobs, was "messed up the ticket situation."

Jacobs, according to Dempsey, is a chronic malcontent, "always beefing about something," and, in reply to Jacobs' statement that he tried to cross Schmeling on Saturday last with a surprise knockout, Dempsey shifts the onus back to the other side with the charge that Jacobs refused to go in the ring to referee the exhibition because he knew his fighter was all set to let go with his Sunday punch.

It may sound like the phonus bonus but the fact is that all is not strictly kosher with those running the Schmeling-Bae fight and hasn't been for some months.

**Hold Conference.**  
Jacobs came into town yesterday behind his original blast at Dempsey and the pair were closeted for two hours in Dempsey's private office. Just what transpired, no one knows. But when they came out, Dempsey seemed aggrieved.

"I wasn't trying to pull one," he said, querulously "I just wanted to help the ballyhoo. Instead, Schmeling tried to flatten me with five or six punches he threw while I was standing there not expecting anything. Naturally, I threw a couple of good ones into Schmeling. I don't know why they wanted to do this, but they tried to cross me up. No wonder Jacobs refused to go in there and referee. He knew what was coming."

Dempsey refused to comment on Jacobs' statement that he had a legal claim on Baer and none on Schmeling and, therefore, was interested in having the California win. He did say, however that nobody could question his neutrality.

**Dempsey Hits Hard.**  
Anyhow, that's John's version. Mr. Jacobs won't greatly disagree except in the principal essentials. First, says Jacobs, he reached the camp looking pale and wan and visibly distressed. Next, he took to his bed and asked for aspirin. It seemed he wasn't quite himself. He had a bad headache. Would the Herr Schmeling go easy. Of a certainty, the Herr Schmeling would. Then, says Jacobs, he walked right out under the bell and let go a left hook that had everything on it except a case of double pneumonia.

Henry occupied the mound for the Merchants in the morning engagement and allowed only six scattered hits. He held the Cascades in check in every inning. Waddington and Henry did the heaviest hitting. Boston was the Cascade pitcher and touched for 16 hits.

In the afternoon tilt Shafic occupied the knoll for the East New Castle team and while found for 11 hits, kept them scattered. The Merchants had 11 hits also off Norris, Miller and Boston. Carnuche led the attack with four safe hits while Shuts featured with a homer.

## Protests Filed On Race Result At Indianapolis

Auto Racers Fight For Share Of Prize Money Following 500-Mile Grind

(International News Service)  
INDIANAPOLIS, Ind., June 1.—Two protests filed against official decisions in the 500 Memorial Day speedway race, today held up distribution of the prize money, the bulk of which is due Louis Meyer, the winner. Prize money was to have been given out last night.

In one protest filed by Art Rose of Indianapolis it was contended that his entry, piloted by David Evans of Columbus, Ind., finished in fifth place instead of Stubblefield of Los Angeles, who was officially declared the winner of fifth position.  
Third money, won by Lou Moore of Los Angeles, likewise was under protest. Aiden Sampson of Van Nuys, Cal., contended that Moore's speedster was disqualified when it dropped an exhaust pipe fitting, but Moore declared the extension filed after completing the 500 mile grind.

Several varieties of flowers have been made to bloom profusely throughout the winter by permitting them only four hours of "sleep," turning on artificial lights the remainder of the night.

## Pinchot Signs Eighteen Bills

Eight Vetoed By Governor  
In Action Taken In State  
Capital

### REGISTRATION

#### BILL VETOED

(International News Service)  
HARRISBURG, June 1.—Because the Harris permanent registration bill would have "encouraged fraud and impersonation," Gov. Gifford Pinchot complied with the wishes of its sponsor, Senator Frank J. Harris, Allegheny, by killing it with a veto.

It provided for permanent registration in Pittsburgh and Scranton. Harris' contention that "amendments so emasculated the bill as to make it entirely unworkable and a step backward instead of a step forward in election reform" was supported by the governor.

**Eighteen Signed**  
Governor Pinchot's signature today appeared on 18 more bills, eight were vetoed.

He approved the Aron bill providing for the licensing of ice cream manufacturers at fees ranging from \$10 to \$100. The act also prescribes the conditions under which ice cream may be manufactured.

He also approved the Harris bill making it unlawful for all accountants and auditors to issue a false financial statement. Another bill restricting this provision only to certified public accountants was vetoed.

The Mason bill making life imprisonment the penalty for kidnapping children under 16 with intent to extort money was vetoed because, the governor said, it would have duplicated a statute that has been on Pennsylvania's books since 1901.

Everybody seemed to have on new clothes—well nearly everybody—the yard was crowded with automobiles, and there seemed no place for a petty larceny yegg in all that gathering.

She didn't even lock her car. It seemed such an unnecessary thing to do. As the exercises closed and the students wished other goodbye and all that sort of thing the teacher stepped out to get her car and noticed the gas tank cap laying on the ground. Nearby was a tell tale length of hose, and the gas tank had about enough in it to get her to town.

Now she wonders if some stranger was visiting commencement, or if one of the boys from off the back roads had forgotten to get gasoline and borrowed hers.

These are interesting days for the bird hunter who doesn't use a gun. Crossing from Plaingrove to the Perry Highway the other afternoon a rather snooty ring necked pheasant, decked out in all his Sunday finery strutted across the road.

On the Wampum-Ellwood road, two young quail fledglings were trying out their wings. And up on the hillside from the Slippery Rock Creek, a meadow lark had a nest built down under a bush, with four eggs in it. A camera and a willingness to hike a little pay big dividends these days.

And so this is June. The month of brides and roses, and sweet girl graduates. Of June bugs and warm nights, of May Day celebrations that are mis-named and June nights that sometimes feel like September.

The reunion of the 28th division gets closer and the local members get busier. Over around the Legion Home there appears to be no other division just for the present. The keystone is the top emblem for the time and by the middle of the month there won't be any argument as to what division won the war.

*our Electric Refrigerator keeps his food safe, fresh and wholesome*

"HOW well I remember the words of baby's doctor: 'The food and drink of your children are the materials of which their growing bodies are made. Keep an eye on their milk—be certain it is pure, safe—always fresh. Keep an eye on every single item of their food. Baby digestions are easily upset.'"

"Do you wonder that I insisted on adequate refrigeration in our home? And what a real investment I have found our electric refrigerator! With its automatic cold temperature—I never have to worry

a moment about the wholesomeness of the children's food or milk. And for all of us it is a never-ending source of pleasure and stimulator of thrift. I often wonder why anyone should try to get along without one!"

Consider quality above price when buying an electric refrigerator. Select one adequate to your family needs. A good rule is to provide 2 cubic feet of refrigerator capacity for each member of your household.

You can buy an electric refrigerator on the easiest terms.
